"Quality coals that satisfy"

September 21st, 1935.

D. H. PAPE EXECUTIVE VICE-PRESIDENT

John W. N. Schulz, Lieut. Colonel, Corps of Engineers, District Engineer, Room 710, Army Building, 39 Whitehall St., New York City.

Dear Sir:

Your letter of Sept. 18th, addressed to Fleer Bros. with reference to improvements on Newtown Creek, has been referred to the writer, who has only been in charge of the company's business for a short while and is therefore not familiar with proposals made.

This company is interested in further development of the Newtown Crock waterway with a view of unloading large cargoes of soft coal to be shipped from Newsort News, Virginia.

We will be glad, at a little later date, to submit our views in some detail and along lines as suggested by you. In the meantime may we ask you to furnish us with a copy of the reports on Newtown Creek submitted in Rivers and Harbors Committee Document Numbered 42, Seventy First Congress, Second Session. And the submission of any other printed information on the subject would be greatly appreciated.

Thanking you in advance, I am,

Yours truly

Executive Vice Fresident.
